

Premnet PN9100EB 18-ince Electric Baton

The Defenders Model 8525K Electric Baton is available in 4 peak voltages, none of them lethal. The difference is in the degree of pain and the duration of the after-effects.

Touching the opponent's body (torso is best) has the following effects:

- Within 1/4 second, muscle spasms and extreme pain
- Within 1/2 to 2 seconds, loss of muscle control and balance
- Within 1 to 3 seconds, immobilized for 1 to 5 minutes, remaining dazed and disoriented for 5 to 20 minutes

The shock effect works equally well through thick clothing and leather.

U.S. Design Patent
No. 289,313

Five-Year Replacement
Guarantee

Complies with US Electrical
Safety Standard IEC529

The identical product,
assembled from the same
components, is available

Made in USA
or
Made in Taiwan

Power Output:	Model	Voltage
	Model 8525K-100	100,000 Volt
	Model 8525K-150	150,000 Volt
	Model 8525K-200	200,000 Volt
	Model 8525K-250	250,000 Volt

Power Input: 1 or 2pcs 9V alkaline batteries
or rechargeable NiCad batteries

Size: 460mm Length x 40mm Dia
(18 in. Length x 1.58 in. Dia)

Net Weight: 560g (20 oz) without batteries

Material: Injection-molded mixture of polycarbonate, ABS and fiberglass reinforcement fibers
